PLANE OR BOAT?

What's roaring and whirring here? Cars whizz back and forth along the highway. Ships roll in on the water. And airplanes fly overhead. Learn to name other types of vehicles that move in, on, and through water and land. On every page a new surprise awaits you, which won't only be fun but will also help with memorization. The colorful illustrations will captivate children, while leaving enough space for their own imaginations to flourish.
