PHYSICAL FITNESS – Every dog is different. Some dogs, especially those with short legs, only need a quick stroll. Others need a long run like a 10K! A professional dog walker must take these differences into account.

PUNCTUALITY – You can't make your canine clients wait. They are desperate for a proper walk.

EQUIPMENT

plenty of water
and a dog bowl

JOB DESCRIPTION

A professional dog walker collects their furry, four-legged friends and takes them on walks that fit their personalities. They must remember to scoop up all the poops on the walk. Back inside, the walker must make sure

the dogs have enough water and food – and if not, they must fill them up. If the dogs have long hair, the walker must brush them.

Don't worry!
We'll bring you
back to full health.

Animal PHYSIOTHERAPIST

WE ARE LOOKING FOR
SOMEONE TO RETURN THE SPRING TO
OUR ELEPHANT'S STEP.

A physiotherapist is somebody who treats injuries. And only an animal physiotherapist can help animals with injuries or mobility issues (things that stop them from moving around). They are experts on animal anatomy, knowing every bone, muscle, joint, and tendon.

They work to restore animals to full health and fitness by first identifying the problem, then creating a personalized – or rather animalized – exercise plan. They also use therapeutic baths and massages to help their animal patients.

Animal TAXI SERVICE

HEY THERE! I HAVE 5 CATS, 2 BIG DOGS, 1 PARROT, AND 3 SNAKES THAT I NEED TO GET TO MY PARENTS' HOUSE ON THE OTHER SIDE OF THE CITY. CAN ANYONE HELP ME OUT?

YOU WILL

LOVE BEING AROUND ANIMALS / BE PATIENT /
HAVE A GREAT SENSE OF DIRECTION /
BE AN EXCELLENT DRIVER

Getting lots of different animals from one place to another is a piece of cake for a pet taxi or transport service. Skilled drivers pick up the animals, load them into their car, and take off. The animals arrive at their destination in no time. If the trip is a long one, the driver needs to make sure the animals don't get hungry, thirsty, or uncomfortable. The driver also stops sometimes so the animals can get out and stretch their legs.

The animals' owners are kept informed about how the trip is going, so they can relax.

And pets aren't transported only on the ground. If they need to go a long way, it's best to use special air transportation, during which their safety is guaranteed.

Veterinary DENTIST

MY CROCODILE HAS BEEN VERY CRANKY LATELY AND HE ISN'T EATING. IF HE COULD SPEAK, HE WOULD TELL YOU THAT HIS TEETH HURT AND SOME OF THEM ARE LOOSE. I'M LOOKING FOR SOMEONE WHO CAN HELP MY PET WITH HIS TEETH SO HE DOESN'T LOSE ANY. IS THERE SOMEONE WHO DOES THAT?

JOB DESCRIPTION

A veterinary dentist is a doctor who treats diseases of animals' mouths, such as aching teeth and inflamed gums. Like a human dentist, they repair decaying teeth, pull out broken teeth, and file down or adjust oversized

or overgrown teeth. If an animal's teeth are very dirty, they will clean them until they shine! Animal stomatologists treat any animal with teeth, even a crocodile or the mighty lion!

Is that the whirr
of a drill I hear?

Why aren't my
teeth like the ones

Wildlife PHOTOGRAPHER

I TAKE AUTHENTIC PHOTOGRAPHS
OF ALL WILD ANIMALS. CALL ME ANYTIME!

Wildlife photographers travel around the globe in search of unique shots of wild animals. Some take pictures of any animal, such as crocodiles, sharks, lions, antelopes, elephants, gerbils, monarch butterflies, and baboons.

Others specialize in one species. In any case, every wildlife photographer must be an intrepid explorer and have the creative vision of an artist.

Pet PHOTOGRAPHER

DO YOU WISH TO HAVE YOUR DOG,
CAT, FISH, PARROT, TORTOISE,
OR HAMSTER IMMORTALIZED IN A BEAUTIFUL,
ARTISTIC PHOTOGRAPH? YES? WELL THEN,
YOU'VE COME TO THE RIGHT PLACE.

Please don't
blink...
or scratch.

A pet photographer has it easier than a wildlife photographer. They don't have to travel to distant lands. They don't have to deal with freezing cold, sweltering heat, sandstorms, or heavy rain. They don't have to hike through the jungle to get the perfect picture. They take photos from the comforts of their own studio,

the pet's house, or a special outdoor spot like a park or a field of flowers. To make amazing pictures of much-loved animals like dogs, cats, hamsters, parrots, and guinea pigs, pet photographers need a great eye and artistic talent.
