# Deluxe STICKER BOOK SPACE

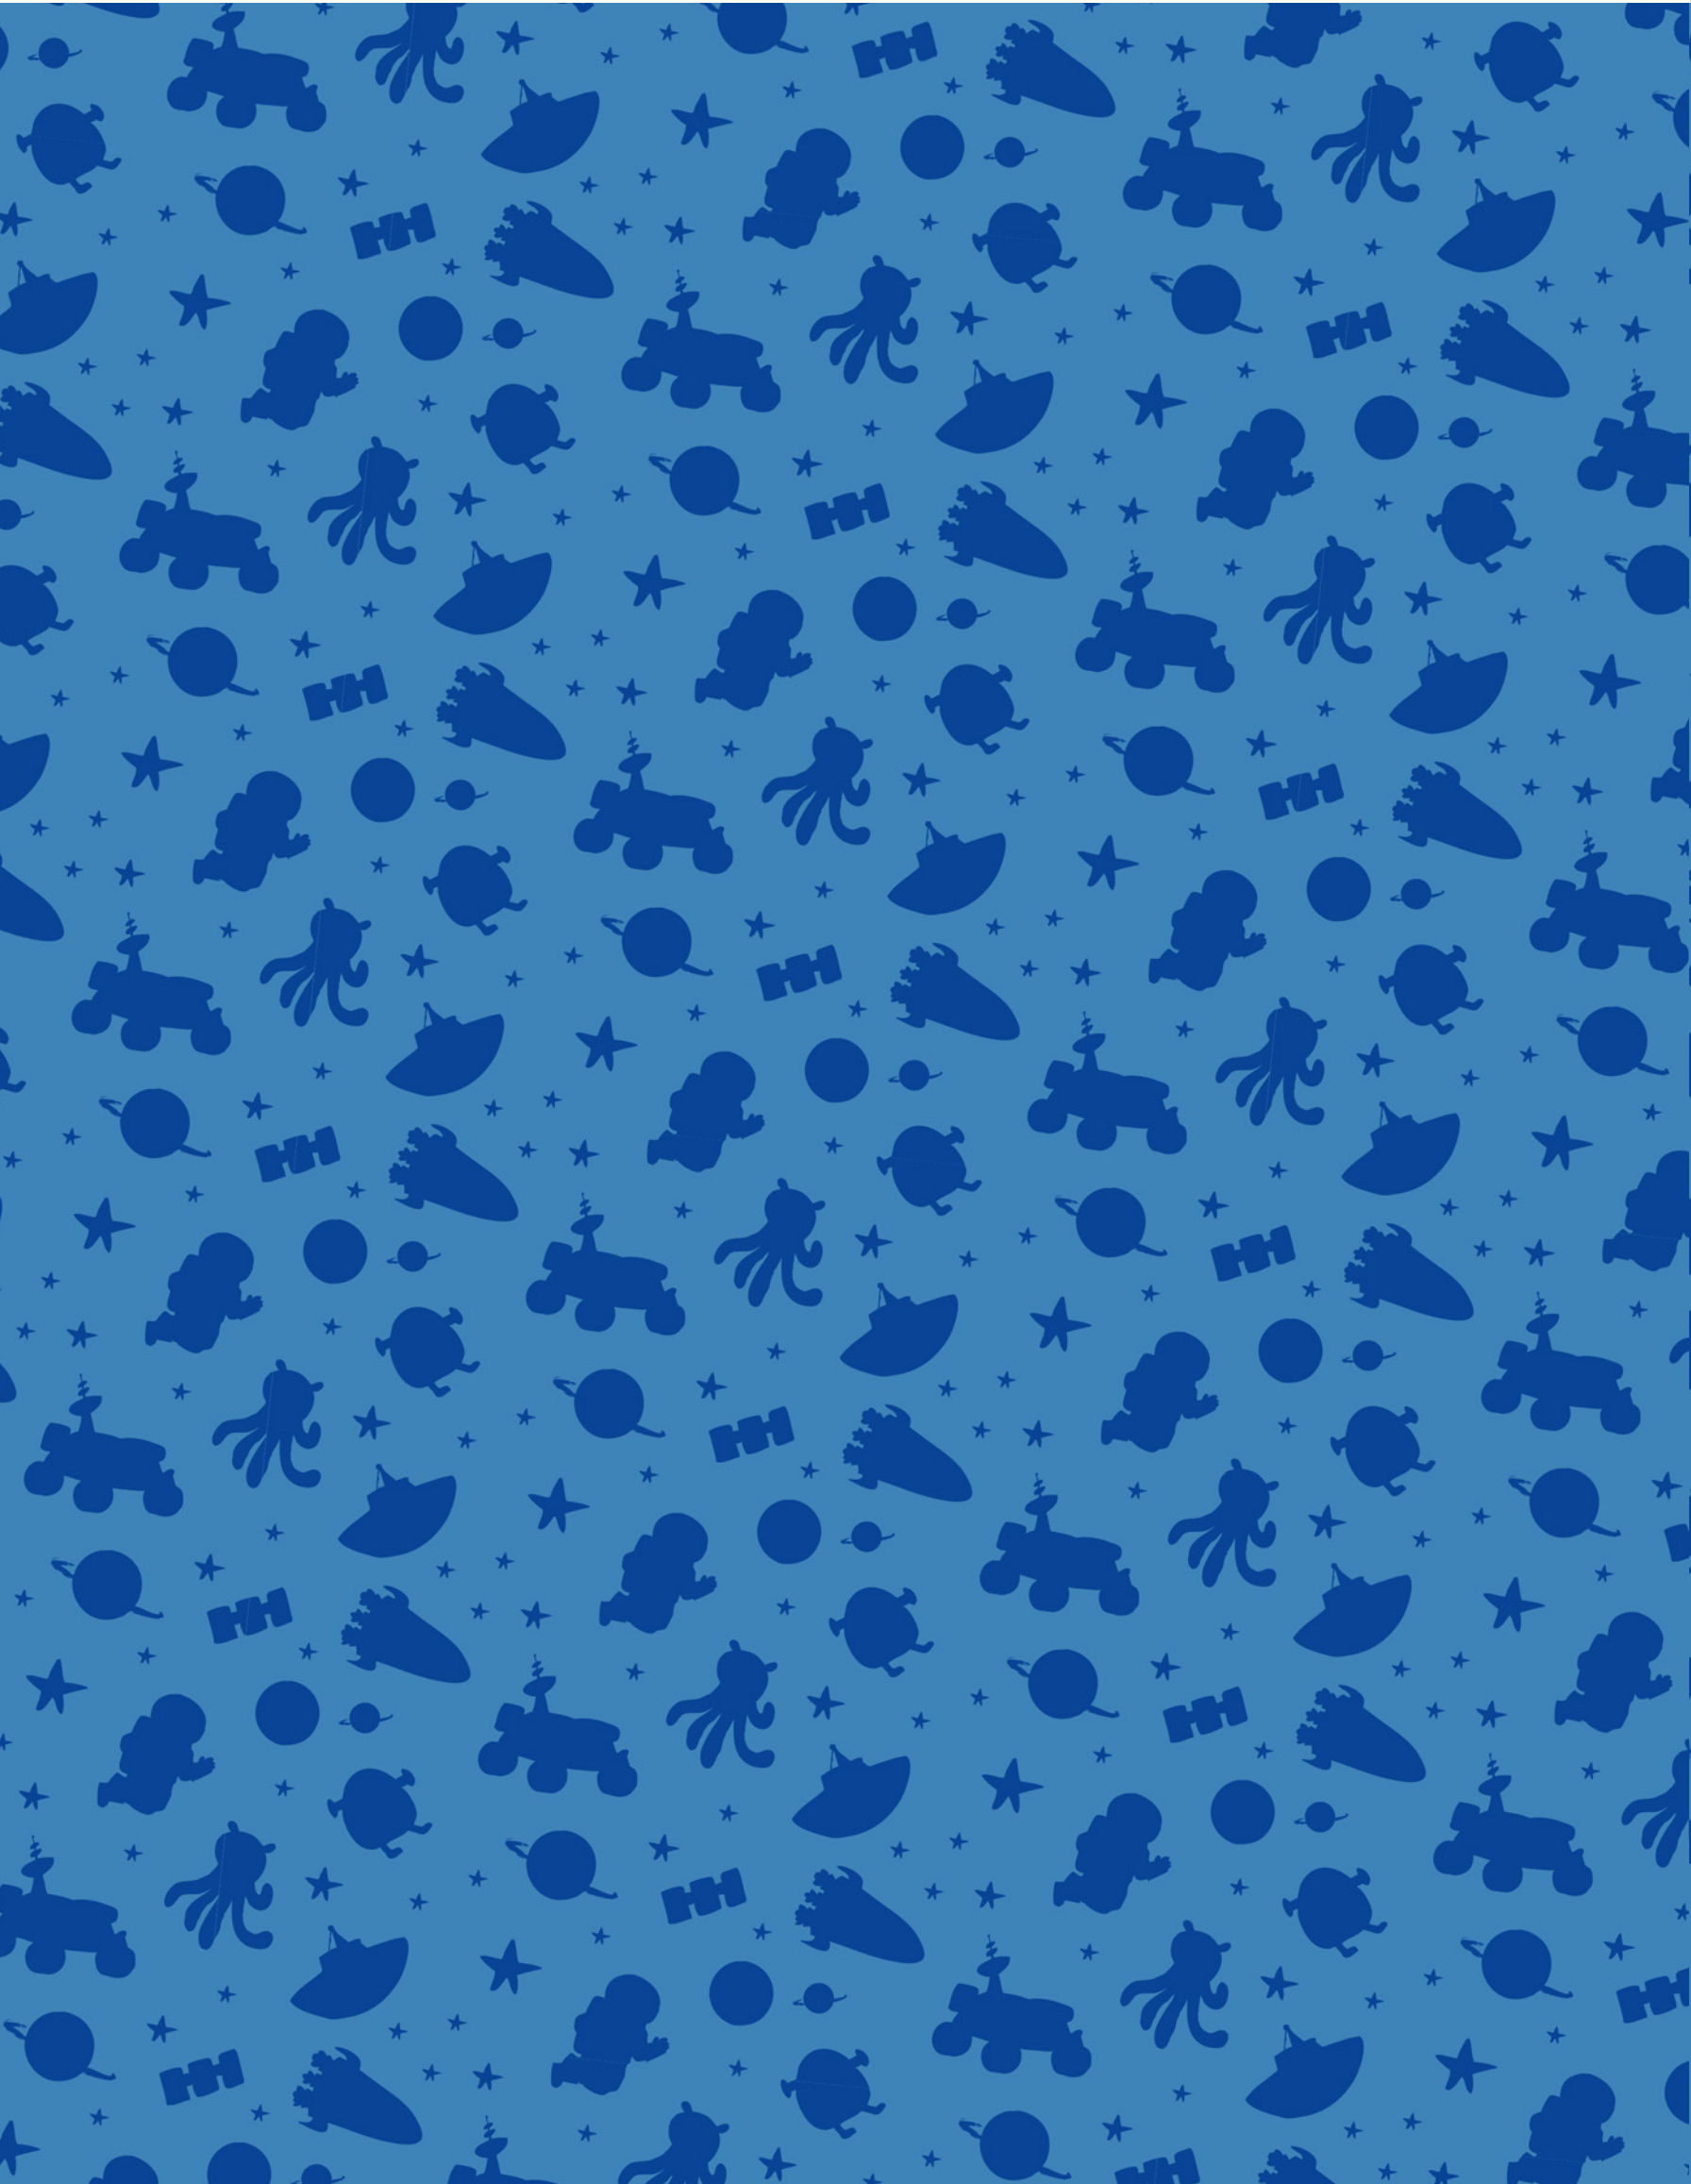

Illustrated by Anuki Lopéz

more than  
**400**  
stickers

Endless Fun & Learning!  
Transforms into a Picture  
Dictionary!

# SPACE

## Contents:

Space Mission.....	2
Three, Two, One, Blast Off!.....	4
The Solar System.....	6
Mercury and Venus.....	8
Martians.....	10
Jupiter Direction.....	12
In a Spacesuit.....	13
Repair a Spaceship.....	14
Behind Saturn and Far Away.....	16
Quiz.....	17
The Lives of Astronauts.....	18
Spacecrafts, Telescopes, Rovers.....	19
Ice Giants and Dwarf Planet.....	20
The Way Home – The Moon.....	22
Back on Earth.....	24

Hello,  
I'm Jane!

Woof! My name  
is Luna!

Hey there,  
I'm Polly!

Grk gleep.

Hi!  
I'm Tom!

Blrp?

Jzz-glp!

Join our space mission! Add stickers throughout the book  
to make your own story to read over and over again.

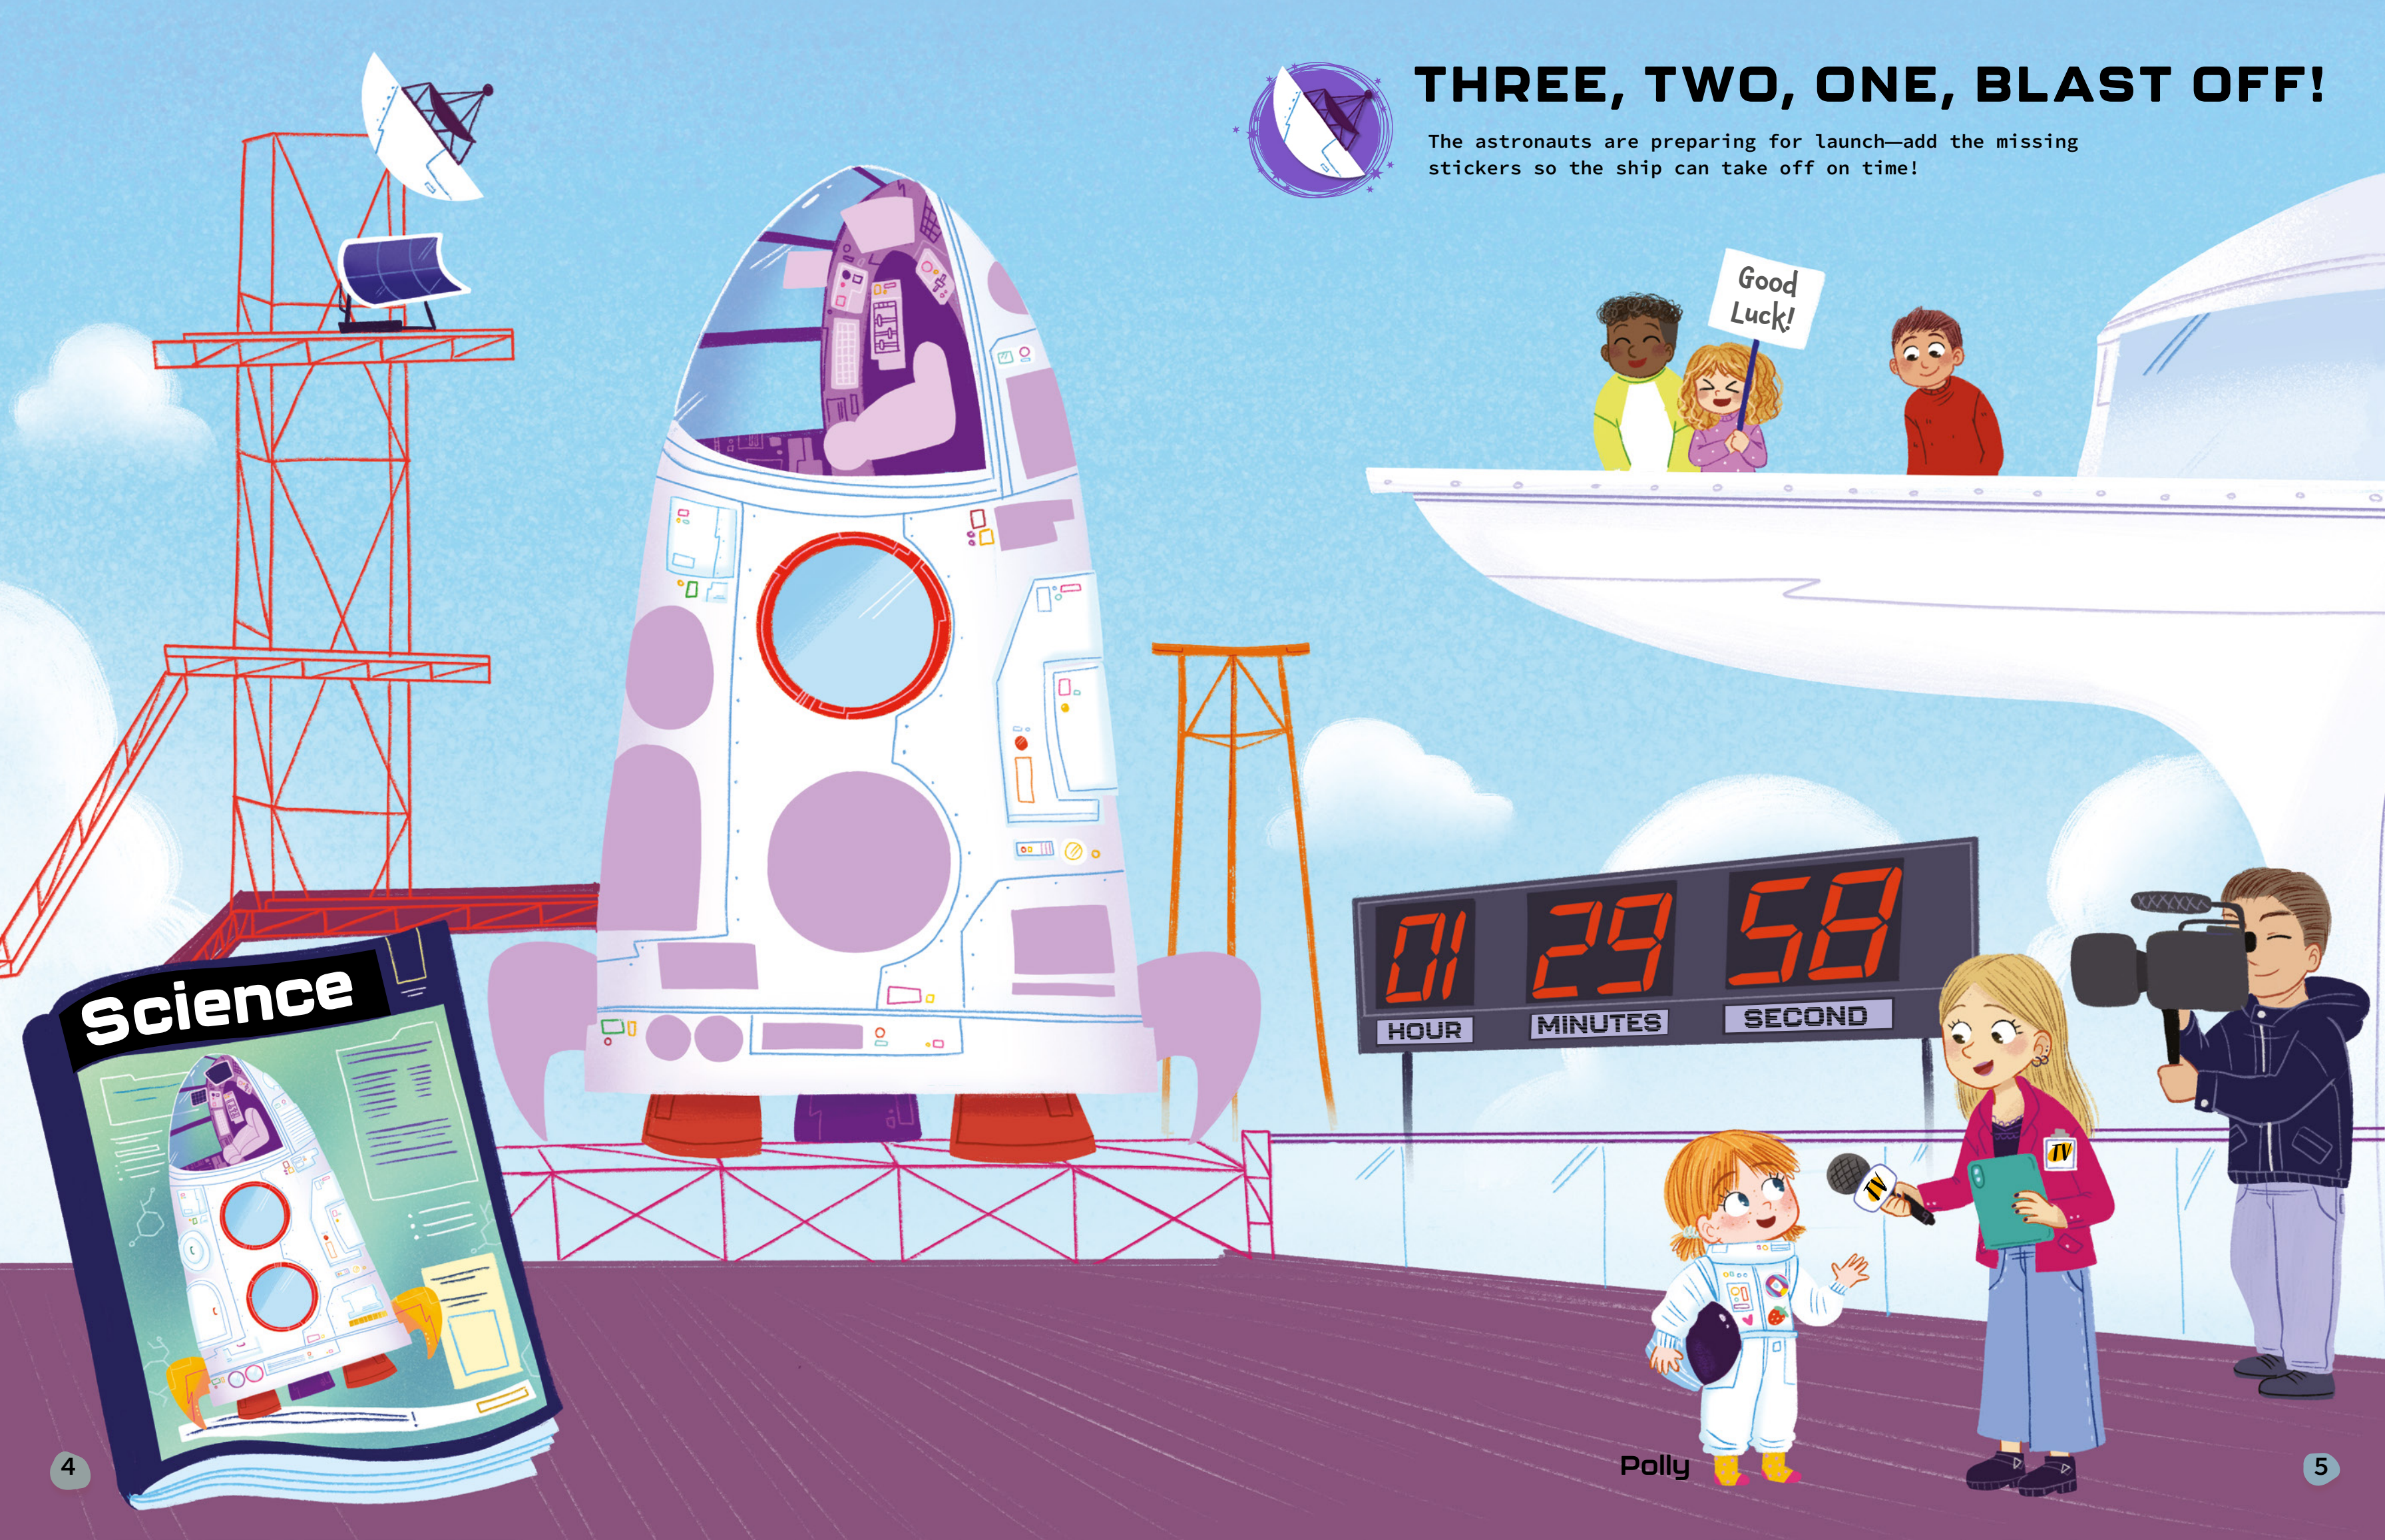

This book belongs to: .....

# THREE, TWO, ONE, BLAST OFF!

The astronauts are preparing for launch—add the missing stickers so the ship can take off on time!

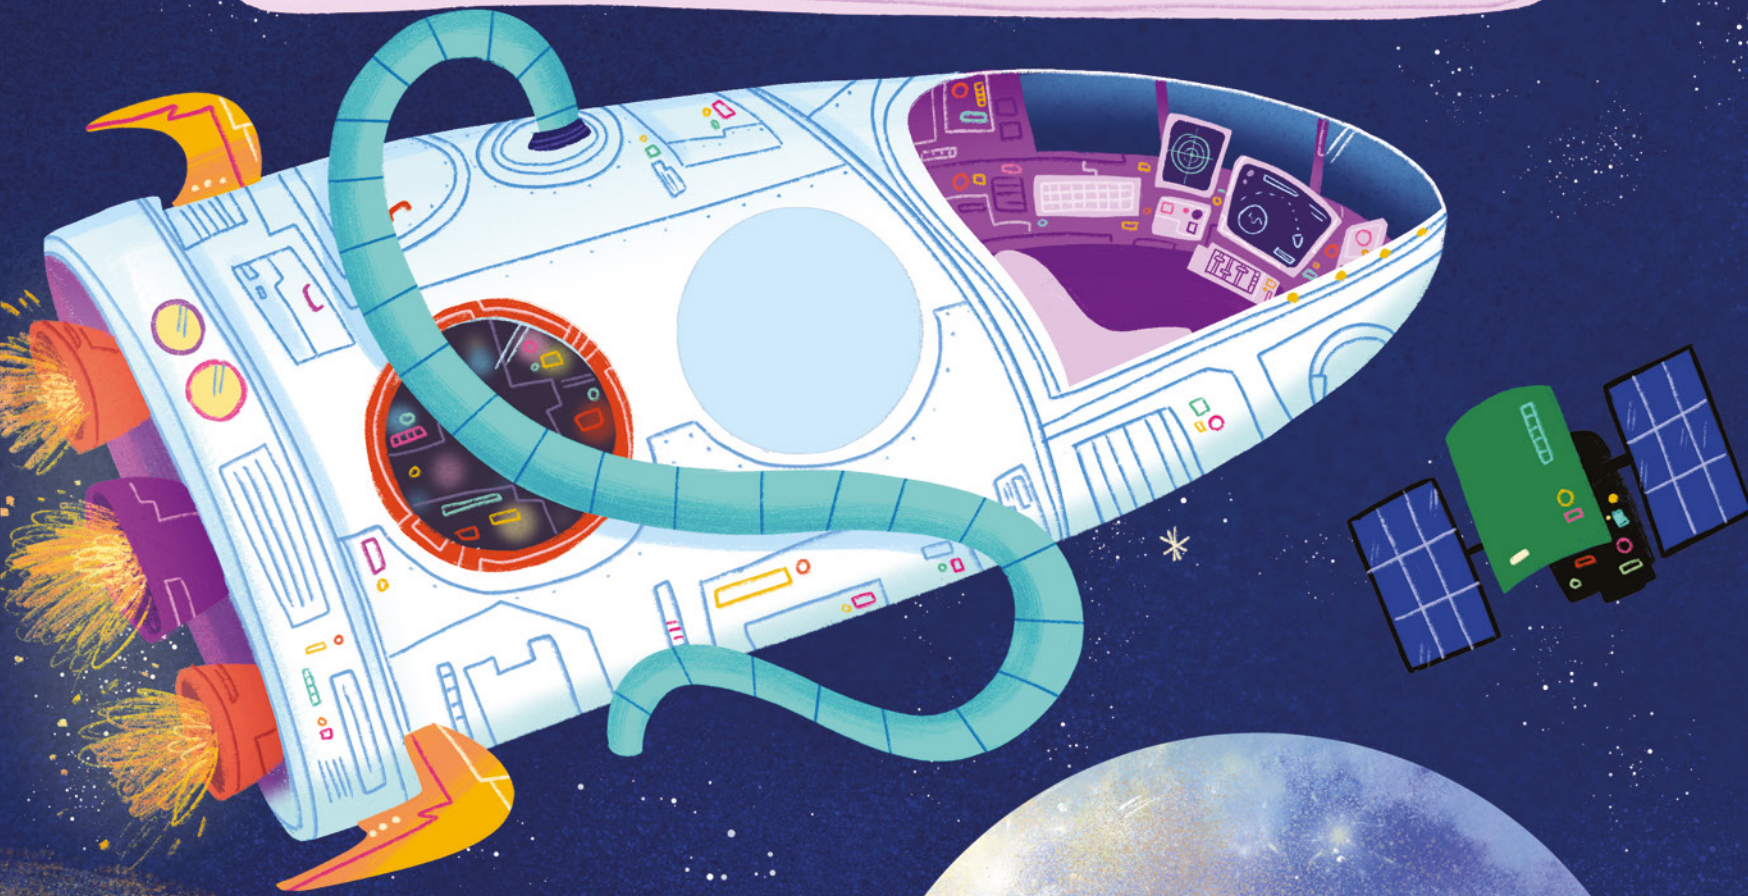

# MERCURY AND VENUS

No human has flown farther than the moon. What do you think we would find out in space? Asteroids? Stars? ALIENS?!!! Add some stickers to show what you would like to see.

## MERCURY

has **no atmosphere** to hold onto the sun's heat. Add fire and ice stickers to show the hot and cold sides.

## SUN

## VENUS

is about the same size as **Earth**, but it's **MUCH** hotter. It's the hottest planet in the solar system.

Did you know that **Venus** shines in the night sky? It's called the Morning Star at dawn and the Evening Star at dusk.

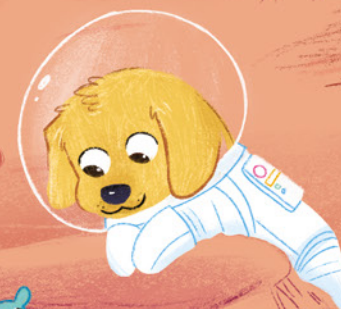

# MARTIANS

Mars is so far from the sun that flying there by airplane would take nearly 30 years! Our rovers haven't found any Martians on Mars, but you can add some funny stickers to the scene and pretend.

Did you know that the surface of Mars is red? That's why it's called the "Red Planet."

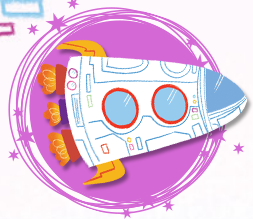

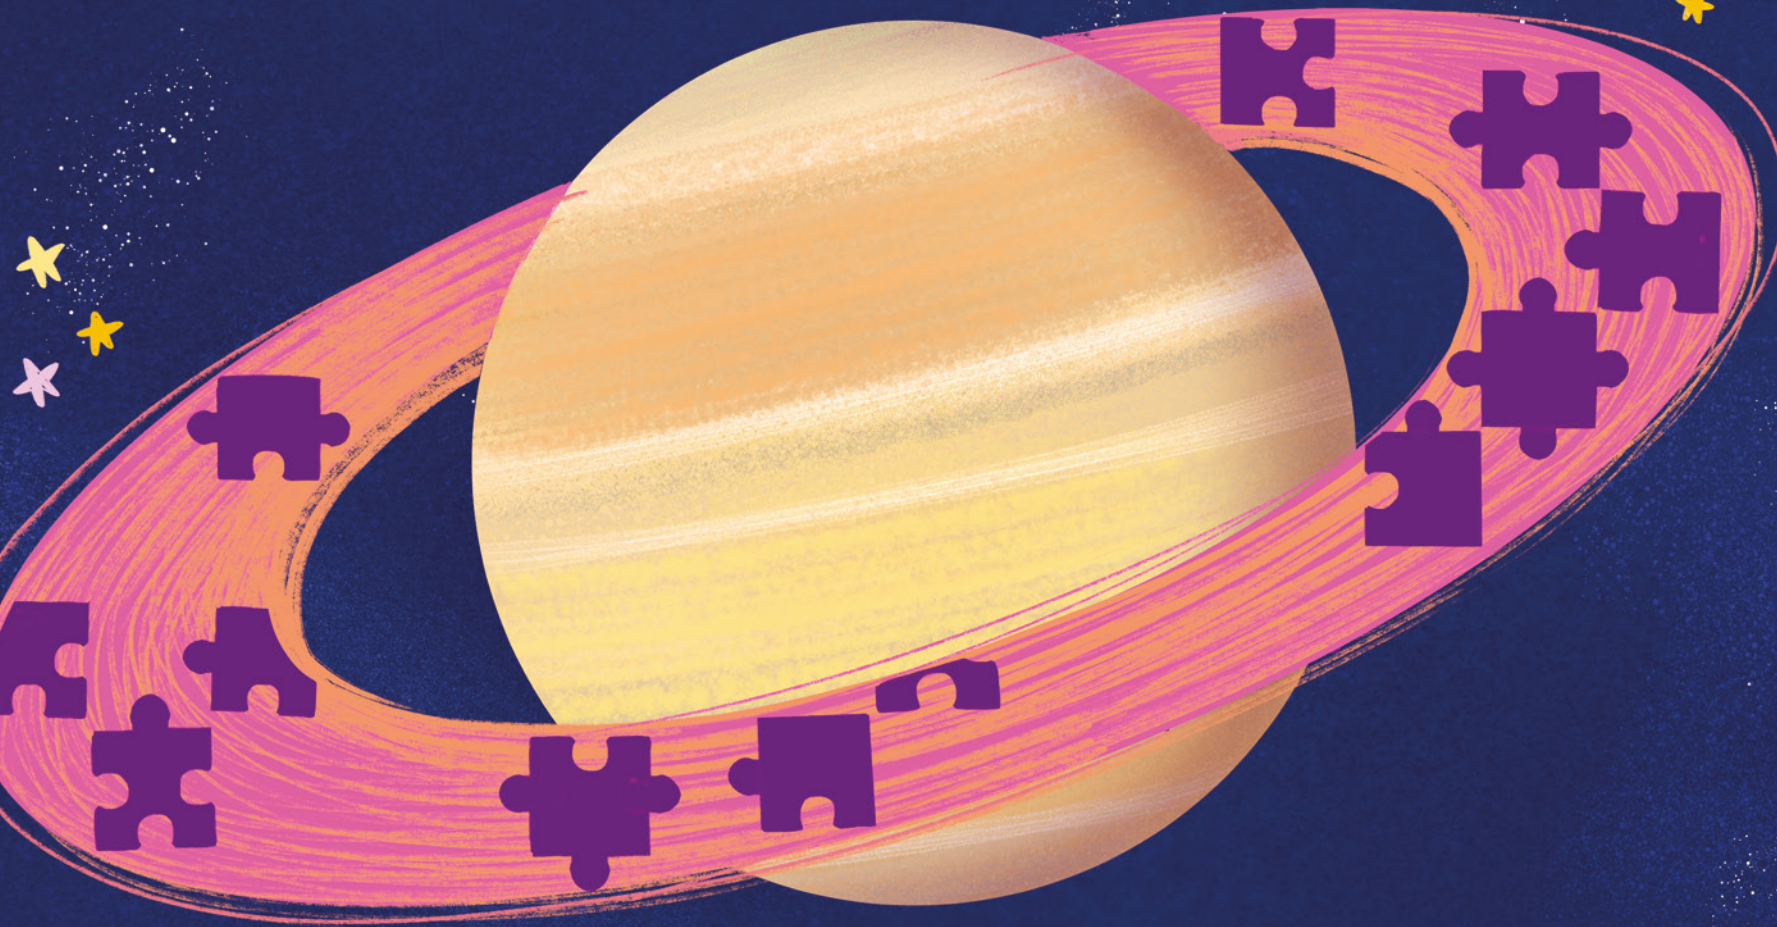

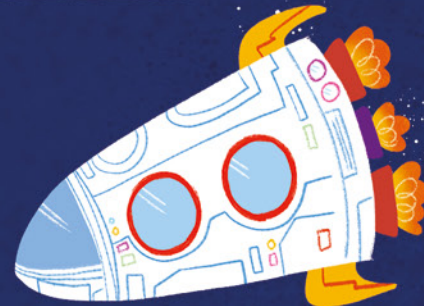

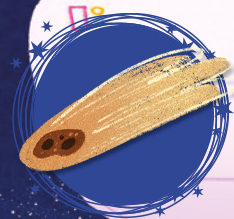

# BEHIND SATURN AND FAR AWAY

Saturn is one of the prettiest planets—it has amazing rings! But some pieces are missing! Can you help fix the rings with your stickers? Maybe there are some silly alien spaceships flying by. Let's imagine!

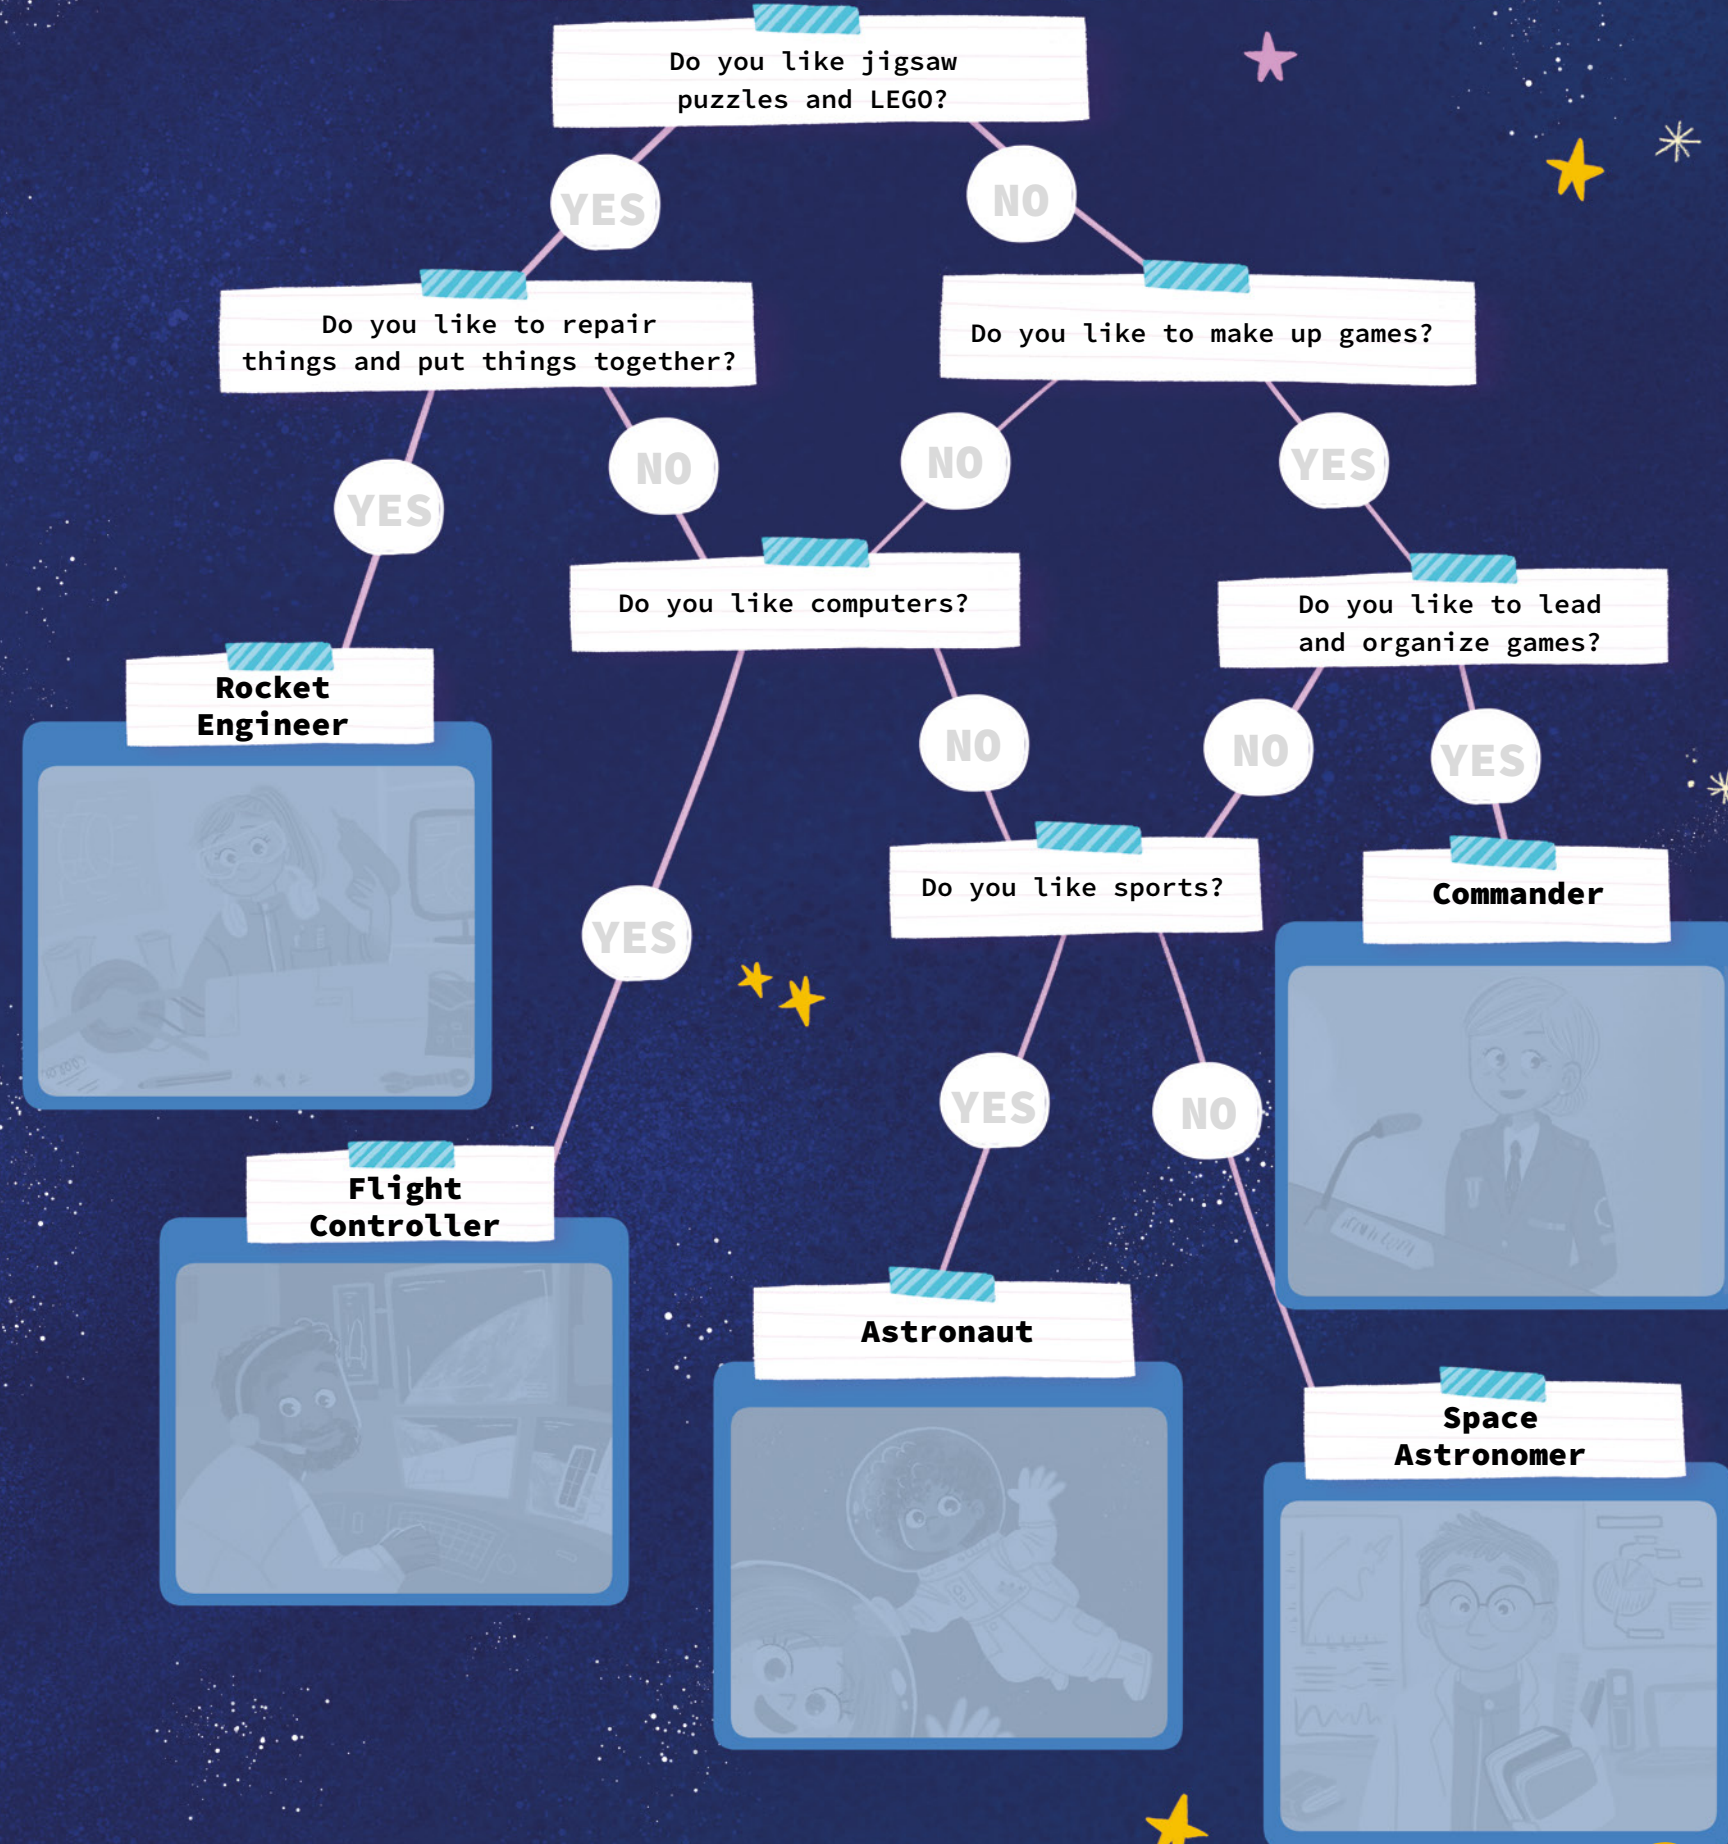

Do you know that the rings around planets are made of dust, ice, and chunks of rock?

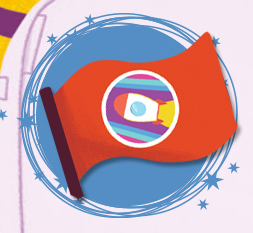

# QUIZ

What important crew member are you? Take our space quiz. Use "yes" and "no" stickers to answer the questions and discover your job on the spaceship.

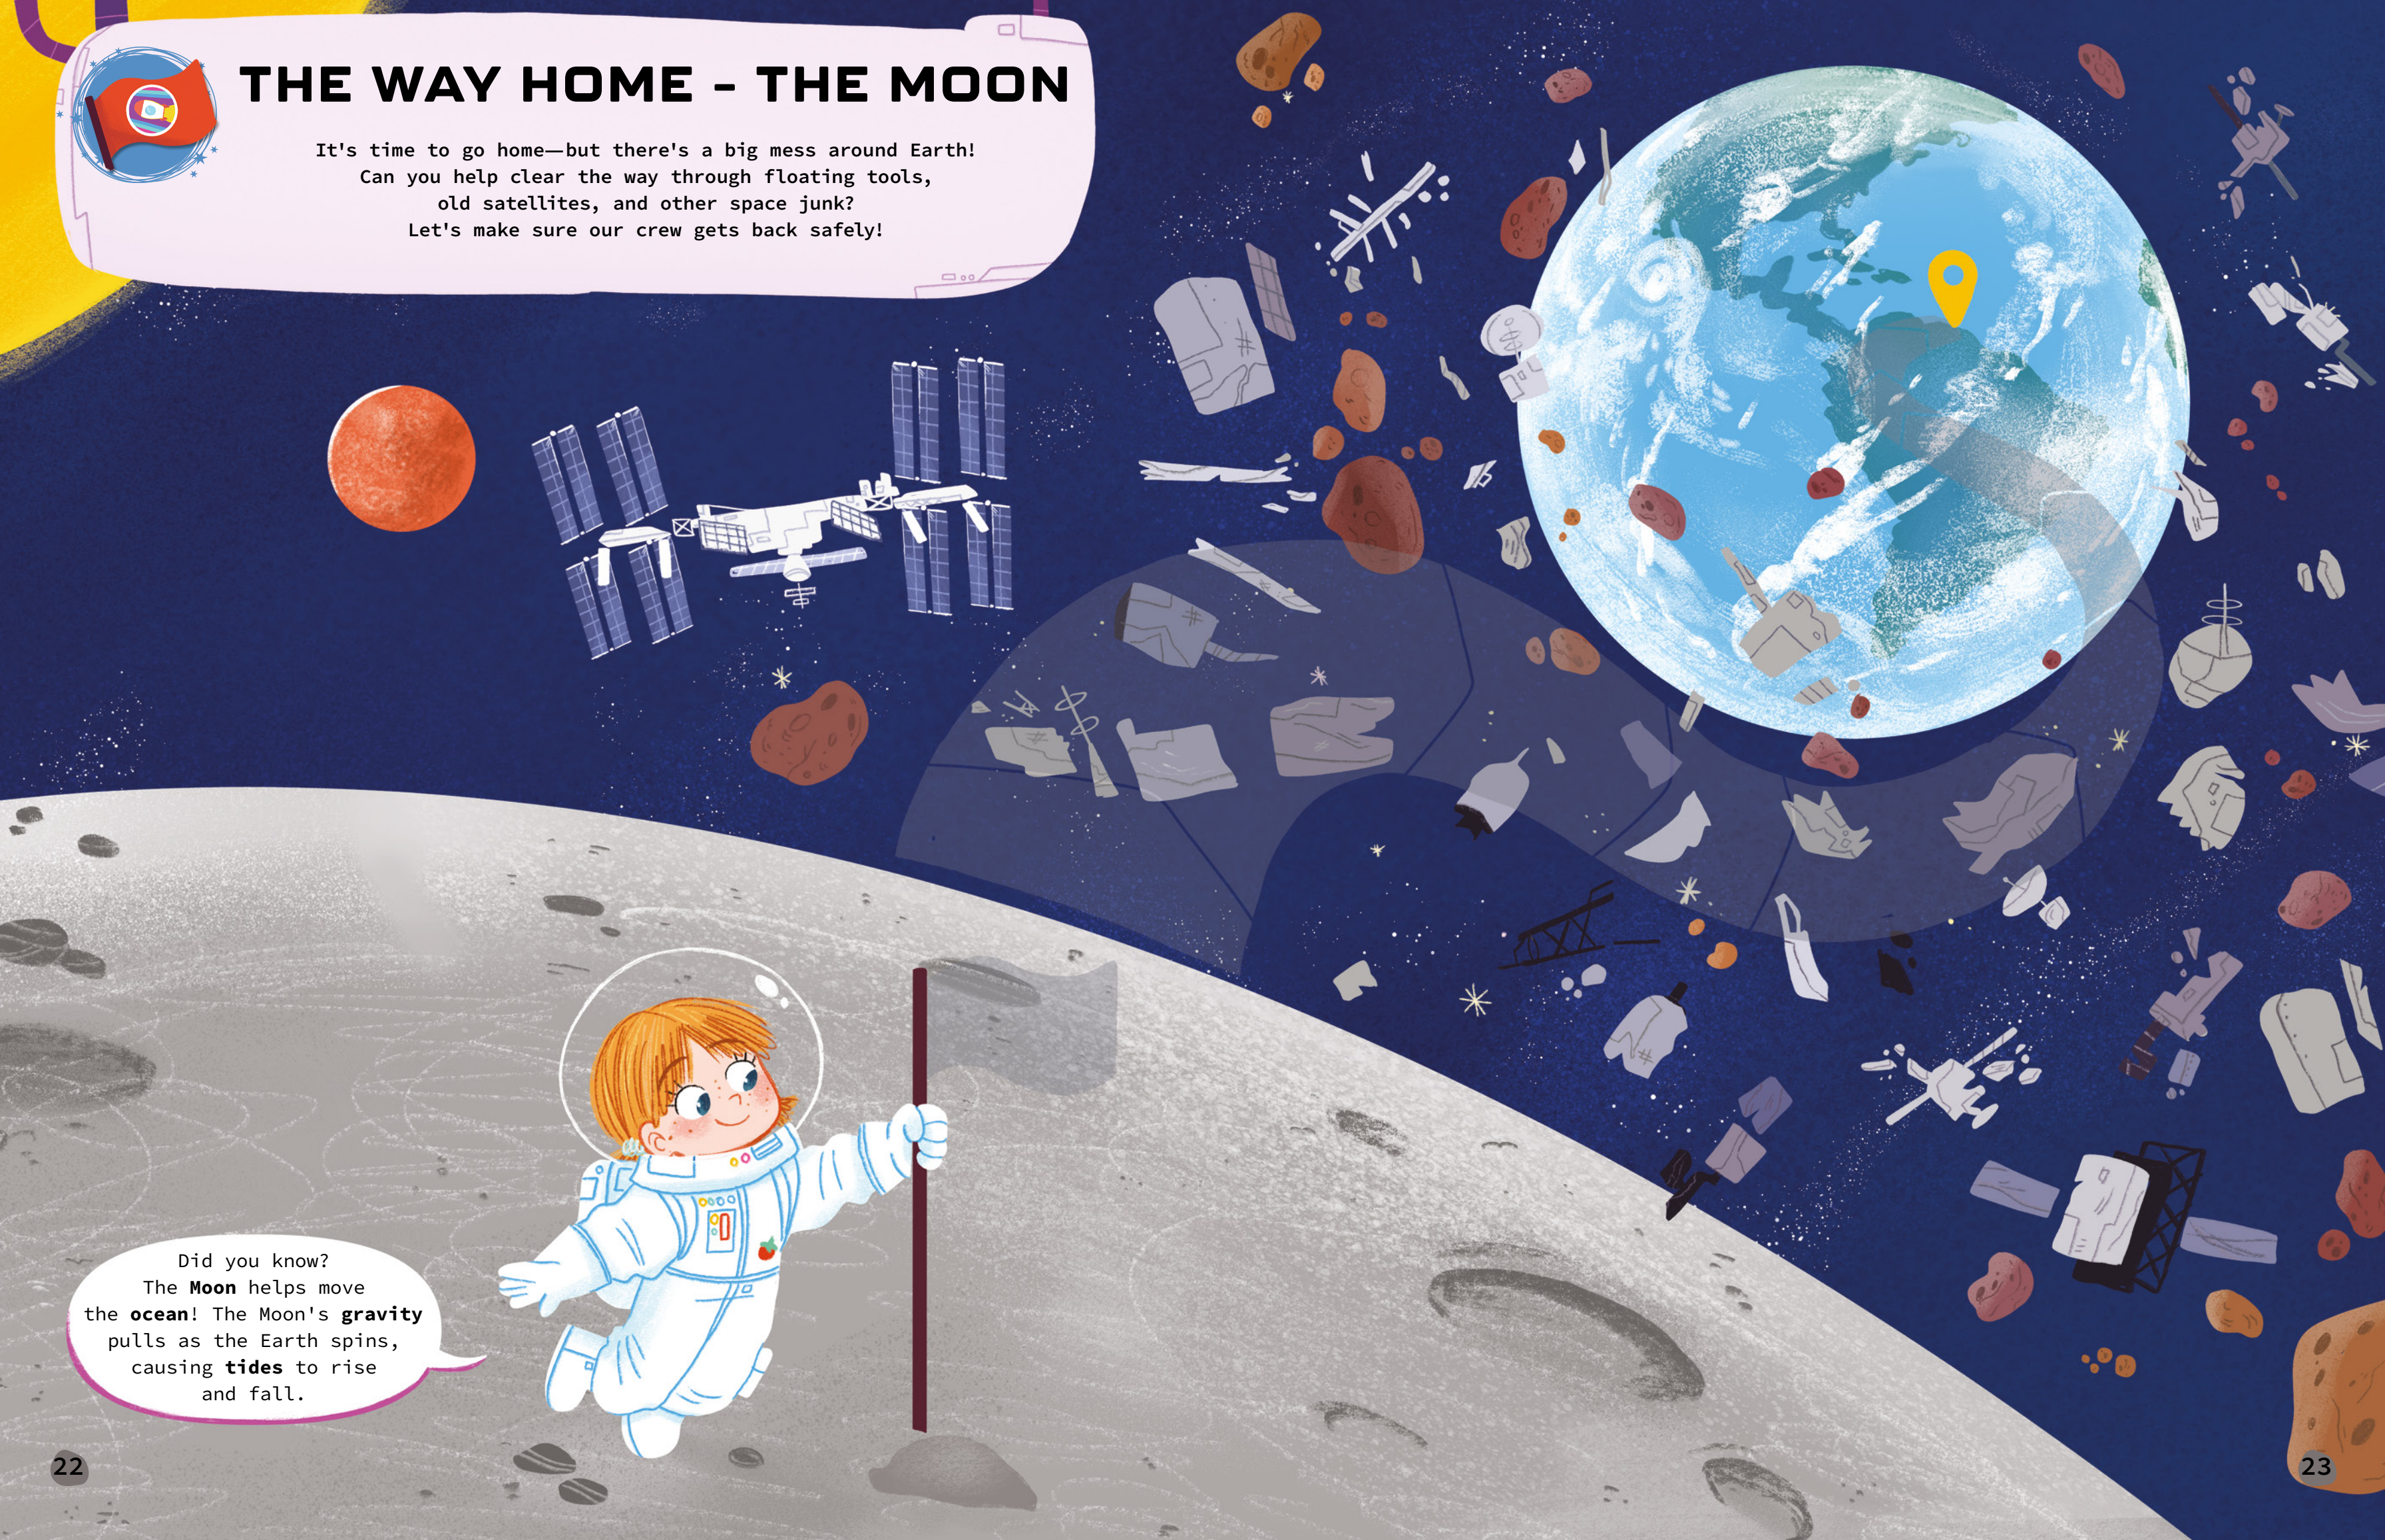

# THE WAY HOME - THE MOON

It's time to go home—but there's a big mess around Earth!  
Can you help clear the way through floating tools,  
old satellites, and other space junk?  
Let's make sure our crew gets back safely!

Did you know?  
The **Moon** helps move  
the **ocean**! The Moon's **gravity**  
pulls as the Earth spins,  
causing **tides** to rise  
and fall.

# Deluxe STICKER BOOK

more than  
**400**  
stickers

Blast off into a universe of fun with more than 400 awesome stickers! Your child can explore the wonders of space by creating colorful scenes filled with rockets, planets, astronauts, and aliens. With exciting activities on every page, this deluxe sticker book turns learning into an out-of-this-world adventure! Perfect for curious minds and little hands, this book makes learning fun and screen-free!
